Commissioner Clark motioned to approve the minutes as submitted. Commissioner Andrews seconded the motion. Vote 5-0.

3 TO APPROVE TREASURER'S WARRANTS

- a. Warrants to be approved on September 6, 2023 in the amount of \$560,355.12 Commissioner Clark motioned to approve the warrants. Commissioner Andrews seconded the motion. Vote 5-0.
- b. Warrants to be approved on September 13, 2023 in the amount of \$1,154,386.15

Commissioner Clark motioned to approve the warrants. Commissioner Andrews seconded the motion.

Discussion: Commissioner Ring asked why the warrant was so high. County Manager Zinser responded there was a payment to My Place Teen Center (ARPA funds) and lots of insurance payments that added up to over \$700,000.

Vote 5-0.

4 TO HEAR ANY REPORTS FROM THE COUNTY COMMISSIONERS

Commissioner Clark mentioned that several Commissioners and management staff attended the Maine County Commissioners Association convention last week. He mentioned that Jail Administrator Nathan Thayer did a presentation on MAT/opioid issues and he did a great job.

Commissioner Ring added that several attendees complimented the presentation.

5 NEW BUSINESS

a. To review and seek approval on Agreement between York County and RSU 57 School Resource Officer

County Manager Zinser explained that the School Resource Officer agreement was received a couple of weeks ago.

Commissioner Clark motioned to approve the Agreement and give the County Manager authority to sign it. Commissioner Andrews seconded the motion. DISCUSSION: Commissioner Ring asked if this Agreement has a fully reimbursed position? County Manager Zinser replied that the County covers about one month of the Agreement. He clarified that the County covers from 7-1 to 8-16. Commissioner Ring asked if the deputy has a vehicle paid for by the county? County Manager Zinser replied, ves. Commissioner Ring asked if the vehicle cost is reimbursed by the school? The County Manager replied, no. Commissioner Ring stated that the county (contract deputy) contracts are usually fully funded by the town. We do not get the full cost of the deputy for this position. Commissioner Ring stated that she believes it is an important position but from her perspective if they are not covering the full cost like the towns do, maybe put that in our budget and have the reimbursements offset. It should go into our operating budget, said Commissioner Ring. County Manager Zinser replied that she is correct in that they are not charged for the vehicle. They are looking for a second School Resource Officer and part of the conversation is that they are aware that they will cover 100%. Vote 5-0.

b. To review memo from Facilities Manager and seek action on request Commissioner Ring motioned to approve disposal of the box truck. Commissioner Chenette seconded the motion.

DISCUSSION: Commissioner Ring asked the County Manager if there are any ideas on how we will replace this?

Facilities Manager DeRochemont addressed the Board and stated that there have been several conversations and it seems as though a rack body type truck with a lift gate would work best to allow transportation of heavier items. He added that he can't find anything used.

Commissioner Ring asked how old the box truck was. Facilities Manager DeRochemont replied, 2003.

Vote 5-0.

County Manager Zinser asked if the Commissioners were agreeable to discussing the snowplow bid that was e-mailed to them but not on the agenda. County Manager Zinser stated that we may need a plow at some point as this was our only bid.

Facilities Manager Rick DeRochemont addressed the Board and said that this company has done landscaping for us in the past. We called all our previous companies and current ones and they just don't have the staff.

Commissioner Ring motioned to accept the snowplow bid proposal as submitted. (Year 1- \$46,000; year 2-\$48,301 and year 3-\$50,711.00 with an option to renew for 2026-2027 at the same price as year 3.)

Commissioner Chenette seconded the motion. Vote 5-0.

c. County Manager to give update on permitting process for Training and Treatment Centers

County Manager Zinser explained that there have been quite a few meetings regarding the buildings including a traffic study by the DOT and DEP meetings and they have gone well. He added that he doesn't think there will be a hangup. They did not have any initial feedback for us from our application.

County Manager Zinser continued that with the DOT it is a numbers game. The initial impact is that perhaps a left-hand turn lane and right slip lane might be necessary. Route 11 and 202 are a little unclear. The DOT is doing a traffic study at the light. We may have to put in a right hand slip lane, said County Manager Zinser.

The local permitting process didn't go very well, explained County Manager Zinser. We presented both applications. The Alfred Planning Board had some questions on the Training Facility application and then they voted to approve the application as complete. This is the first step in a multi-step process, he explained.

The Alfred Planning Board then motioned to deny the permit application for the Recovery Center. After, quite a bit of conversation ensued regarding the completeness of the application. Their thought is that we are asking for more than the ordinance allows in terms of bed restriction, but we disagree, continued the County Manager. The purpose of meeting was to determine completion of application.

Next, another vote was taken and it was approved to table the (Recovery Center) application.

County Manager Zinser informed all that we are going to work with our Attorneys. At the end of the day, we will have to make some decisions. If we keep the current Recovery center open, we have the potential to do more. Or on the flip side, explained the County Manager, we have to reduce and split buildings up and maybe move one wing over. One building could be 30 feet away from the main building. This new method will build a center with 30 beds and keep the current Layman Way Recovery Center open. We believe we can do that, stated the County Manager.

County Manager Greg Zinser stated that he had a conversation with the County's Clinical Consultant today and she is going to come up with what programs would work best in what buildings.

The site walk for the Training Center is mid-October and at the next planning board meeting we will have a better idea where they are going. They are allowing us to submit a brief, said County Manager Zinser. We will come up with Plan B and Plan C, he stated. He added that the The Recovery Center will be built.

County Manager Zinser stated that he had e-mailed off to the Commissioners the latest update on the numbers. The construction cost is now coming in at \$45 million. That is a little less than the first bid. It is \$38 million without contingencies. The issue is the contingencies, explained County Manager Zinser as they add up to another \$5 million. In reading the fine print, I have asked the question about the quote as includes sales tax and we are tax exempt. This lowers the gap.

We are maintaining a positive attitude and also, we are sending a letter to the Maine Recovery Council, stated the County Manager.

Commissioner Ring asked with the new recovery center, will we still have the MAT program at the jail?

County Manager Zinser replied, yes, as they are two different things. He added that the Sheriff, Jail Administrator and he believe that when we bring the new center online, we will take that over.

Commissioner Ring asked if we have asked for help to get letters of support from law enforcement?

County Manager Zinser responded that we will ask for support when the time comes.

County Manager Zinser informed all that they redid the Recovery Center budget with updated Maine Care rates and it will cost about \$5.2 million to operate the facility. We have \$4.2 million coming in reimbursements so the deficit is almost gone. We will use the funds we currently raise for the Layman Way program, also.
